GAME DEVELOPER

Dynamic game developer with 4+ years of experience in **Unity** and **Unreal Engine**, blending creative roots in music and culinary arts with strong technical expertise. I specialize in **gameplay programming**, **AI systems**, and **UI/UX design**, with additional strengths in **VR/AR**, **multiplayer development**, and **graphics programming**. Whether orchestrating combat mechanics or designing intuitive interfaces, I bring adaptability, problem-solving skills, and a passion for crafting immersive, emotionally resonant experiences in fast-paced, collaborative environments.

WORK EXPERIENCE

Titan1Studios – Remote | Oct 2023 – Present

Game Developer

Contributed to multiple Unity-based PC, console, and mobile projects as a gameplay, AI, and UI programmer.

- Developed a **kid-friendly emoji-based chatbot system** using a local LLM, drag-and-drop UI, and **FMOD voice lines using a local TTS system** (*Dewey Doolittle* – Mobile)
- Built a **season-synced time system**, **localization tools**, and **culling optimizations** for a life sim game (*Welcome: A Cozy Estuary* – PC/Console)
- Engineered **turn-based combat systems** and **AOE logic** using **RedBjorn ProtoTiles** for a **deck-building roguelite** (*Love Is A Roguelite (LIAR)* – PC/Console)
- Created shared **Unity tools**, improved performance across systems, and supported cross-project pipelines

PROFESSIONAL SKILLS

- **Programming Languages:** C#, C++, Java, PHP, CSS3, HTML5, MySQL, MariaDB, SDL, OpenGL, Python, Lua
- **Game Development Tools:** Unity, Unreal Engine 5, Rider, CLion, Visual Studio, Visual Studio Code Eclipse, Git(Github & Bitbucket), FMOD Studio, Adobe Photoshop, GIMP, Jira, Confluence, Slack
- **Technical skills:** Gameplay Programming, AI Programming, UI Programming, Graphics Programming, VR/AR Development, Tools Programming & Editor Scripting, Game Mathematics & Physic, Optimization & Debugging, Object-Oriented Programming (OOP), Prototyping & Game Design, Agile/Scrum Methodology
- **Soft Skills:** Strong Communication, Collaboration, Problem-Solving, Critical Thinking, Time Management, Adaptability, Attention to Detail, Creativity, Self-motivation, Resilience

ADDITIONAL PROJECTS

Multiplayer Third Person Shooter – Unreal Engine 5 (PC) – In Development : Third-person multiplayer shooter built with Listen Server architecture

- Implemented **combat systems** and **responsive third-person controls** using **C++** and **Blueprints**
- Created **host/join lobby UI** and **session handling** for **peer-hosted multiplayer**

Maple Wars – Unity (PC) : Local multiplayer sugar shack–themed game with syrup-based competition and power-ups

- Built the **core architecture** using a **manager-based pattern** and **reflection**
- Developed **split-screen multiplayer** using Unity’s **new Input System** and **Cinemachine**
- Engineered an **ability system** and **animal AI** using **ScriptableObjects** and **NavMesh**

Taco Truck Madness – Unity (VR) :VR cooking game where players serve tacos to dinosaurs while battling rats

- Built **AI systems** for rats and dinosaurs with **NavMesh**, **state machines**, and **perception logic**
- Implemented a **modular game loop**, **respawn system**, and **immersive world space UI**

The Last Root Standing – Unity (WebGL) : Game jam wave defense game about protecting a root from lumberjacks

- Created dynamic AI using a **finite state machine** and **scalable wave spawning**
- Implemented **physics-based movement** and **ragdoll enemy propulsion**

EDUCATION

2D-3D Video Game Programming (AEC)

Collège Universel – 01/2024

Cuisine & Gastronomy (DEP)

Institut de tourisme et d’hôtellerie du Québec – 01/2022

Pop/Jazz Guitar Interpretation (DEC)

Cégep de Trois-Rivières – 05/2020
